

## Grower Mouse Bait Record and Observations

Grain Producers Australia is seeking grower observation and data to support its application for an Emergency Permit for ZP-50 mouse bait access. This information will also be used to support registration applications for ZP50 products.

This is an important part of the information gathering process to support an application for a chemical product to address the mouse plague emergency situation occurring in Western Australia and South Australia.

Please provide responses to the following sections as applicable. You may be contacted to elaborate on or clarify any information provided. We ask that you please provide as much detail as possible.

Send your completed records to [admin@grainproducers.com.au](mailto:admin@grainproducers.com.au)

PLEASE NOTE If you are submitting observations from multiple paddocks/locations, please submit as separate surveys to allow for accurate data capturing.

<b>First Name:</b>	<b>Last Name:</b>
<b>Phone:</b>	<b>Email:</b>
<b>Suburb/locality (nearest town):</b>	<b>State:</b>

	<b>Date of seeding:</b>
<b>Soil type:</b>	<b>Previous crop (type and yield):</b>
<b>Stubble situation (standing, mulched, bare ground or other):</b>	<b>Chew card information or active burrow counts if available pre and post baiting:</b>
<b>Estimated background food present. Comment in terms of grains per square metre.</b>	<b>Any impact on non-target species (birds/mammals):</b>

**Estimated percentage (%) control of the ZP25 baiting:**

**Did you need to re-bait (Yes/No):**

**If 'Yes', how many days after the initial baiting application:**

**If you have had access to ZP50 under a research permit, please provide any available data on active burrow counts and/or chew cards in pre and post baiting for both ZP50 and ZP25 baits.**
